Tech Skills

- React Hooks
- React Typescript
- React Routing
- React Testing Library
- Accessibility features
- Figma Pixel Perfect HTML CSS
- Express API endpoints
- Next.js Basics
- Tailwind, Styled-components
- Docker containers
- Vercel Deployment
- AWS S3, Serverless
- Git branching

Languages

English – Upper Intermediate
Polish – Upper Intermediate

Experience GitHub Projects

FindFace - **AI-powered face detection app** — Nov 2023 - Apr 2025

Challenges
- API key leaks in Chrome DevTools Network tab: I secured API requests by moving ClarifAI image processing from the client-side to the server
- CORS errors when downloading images with applied filters: I deployed the Express endpoint and handled image requests through a CORS proxy
- Vercel's read-only server issue when updating user profile images: I solved this by storing images in Amazon S3 and saving URLs in the DB

Kanban - **Kanban with pomodoro task manager app** — Aug 2023 - Feb 2025

Challenges
- Efficiently remove event listeners: I tackle it by debugging the code and using Chrome DevTools EventListeners Tab
- Restore Tab key focus after DOM re-renders: Assigned each task a unique ID and tracked focused element dynamically inside it
- Maintain the Pomodoro timer state across DOM updates: I leveraged localStorage to persist the timer and session data

Work Experience

BRWmania	Automation Content Manager	2019 - 2025
EMV-Energo	UI Engineer	2014 - 2019
ORGRES	UI Engineer	2011 - 2014

Work Achievments

- Organized a single source of pricing for different clients using Google Docs formulas (4x faster price updates)
- Automated filling of ad campaign data in Google Ads (3x faster launch of new campaigns)
- Improved data security for pricing in Google Docs (enhanced safety)
- Automated stock availability updates on Rozetka based on Excel inventory (4x faster data updates)
- Automated price validation between website and Excel (improved data accuracy)
- Restored product color data after a site crash (improved data accuracy)

Education

Lviv Polytechnic	Automation Engineer	2006 - 2011
Gymnasium "Evshan"	English proficiency class	1995 - 2006
